Why ipracticecostabrava?

- Because of the **ideas** that we provide: the idea to be the vertex of communication of all the involved parts: hotel-student-school-family.
- Because of the **illusion**, understood as a dream that we have to give the best service as possible and to be able to work in the cleanest and most professional way as possible.
- Because of the maximal **intelligence** that we are trying to work, even during the selection process when we choose the adequate candidates to each available position and also during the managing of situations when potential problems are appearing.
- Because of the **image**. We understand that a good image must be given by all the parts and to all the parts. This is essential to reach the best results. In the other hand, we try to find also the most adequated profiles to each of the placements.
- Because of our **interest** in the well done and fair work.

Why ipracticecostabrava?

- Because our **initiative**, in working in a selective and exclusive way in order to have a little group of students and being able to give the best level of quality to all the parts.
- Because of our **intuition**, which makes us being efficient during the selection of the correct profiles, and the intuition that makes us see easily the possible solutions to the problems easily.
- Because the **innovation** of our service: We just try to be a fair and family agency working with exclusive service. Our most valued present to the students will be to have found the adequate hotel who can help them in this personal and professional development.
- Because of the **impression**: The good impression that we want to give to all the parts and the impression that will be prompted in the memories of all those students who decide to go on in this adventure of being one summer abroad.
